### GT-7012-T TABER 耐磨耗性試驗機

#### TABER Type Abrasion Tester

ASTM-D1044、ASTM-D3884、DIN52347、DIN53109、ISO-5470-1、ASTM D4685、ISO 9352-2012

本機適用於布、紙、塗料、合板、皮革、天然橡膠等之耐磨耗試驗。試驗利用試樣旋轉帶動砂輪，藉以磨耗測試。可連接吸塵裝置，便於清潔打理。

The GT-7012-T is specifically designed for conducting abrasion tests on materials such as cloth, paper, coating, plywood, leather, and rubber. During a Taber abrasion test, the specimen is rotated under constant speed and rubbed against abrasive wheels until a predetermined number of cycles is reached. The abrasive particles generated during the test can be removed by the equipped vacuum cleaner.
