GT-7023 耐汗試驗器 Perspiration Tester

AATCC-15-2007、ISO 105-E04-2013、GB/T 3922-2013

適用於紡織品、皮革耐汗漬色牢度試驗方法。複合試片浸漬人工汗液後，以本器夾壓經一定溫度時間，對照灰色標，評定耐汗等級。

The GT-7023 is designed to determine the color fastness of textile and leather to human perspiration. During a perspiration test, a composite specimen treated with artificial perspiration in the perspiration tester is subjected to specific pressure and temperature conditions for a specified period of time. The degree of color change is then assessed by comparing it with a gray scale.

規範 Specification	試片 Specimen	壓克力板 Acrylic plate	荷重 Load	體積 Dimension(W×D×H)	重量 Weight
ISO	40×100 mm	115×60×1.5 mm(D)	5 kg	196×77×220 mm	8 kg
AATCC	60×60 mm		4.5 kg
