GT-7054-A1 扭轉試驗機 Cord Torsion Tester

CNS941-104

專門試驗各種金屬線之扭斷強度及漆包線之漆膜耐扭次數。
將試樣兩端夾緊一端固定不動，另一端360°連續旋轉或180°
往復扭轉，至試樣扭斷或漆包線之漆膜脫落，露出導體，記
錄其耐扭轉數。

The GT-7054-A1 is specifically designed to assess the torsional strength of various metallic wires and twist resistance of enameled wire coating. One end of the specimen is fixed, while the other end is rotated continuously 360° or reciprocally 180° until the specimen fails or the enamel coating peels off. The number of twists is recorded.

馬力 Motor	DC 1HP
夾具作動 Grip type	油壓式 Hydraulic
夾具距離 Space between grips	0~500mm(可調 adjustable)
夾持直徑 Gripping diameter range	0~12mm
計數器 Counter	0~999.9(精確到0.1轉 accurate to 0.1 revolution)
轉速 Speed	40~70rpm可調 adjustable
最大扭力 Maximum torsion	2kg-m
電源 Power	3φ AC220V 50/60Hz 6A(依國別或指定 or specify)
