GT-6011-2 豎壓試驗夾具 Edgewise Compression Fixture

JIS Z0403-2-1999 · CNS 11486-1986

適用於測試各種類型瓦楞紙板（包括單層、雙層及三層瓦楞紙板）的蝶形試樣之豎壓強度。固定蝶形試樣上下兩端，使之成垂直狀，再整個置於環壓試驗機之壓縮板間，測試豎壓強度。

The GT-6011-2 is specifically designed to hold butterfly specimen of single-wall, double-wall, and triple-wall corrugated boards for vertical compression testing. This fixture securely holds both ends of the butterfly specimen, allowing it to be tested between the plates of the ring crush tester to measure vertical compressive strength.

體積 Dimensions	15x10.5x6.5 mm
重量 Weight	2 kg (approx.)
